The landscape symbols help you create beautiful landscape plans for your house or building. We use these symbols to depict the plants and other materials in the design to create a healthy landscape that showcases natural beauty.

Here are the most commonly used landscape symbols and their benefits. Learn about their types, uses, and how to find these symbols and make the landscape for free using EdrawMax Online. Also, learn how to draw personalized landscape symbols.

1. What Are the Landscape Symbols

Before you create a **garden design**¹ or **landscape plan**² for your house, it is better to create a design diagram depicting all the details and materials. With landscape symbols, you can create a landscape plan to decide the design and decorations you want to include in your landscape or property. You can see how your garden will look after you finish landscaping before starting the project.

Landscape symbols are the icons and illustrations that visually represent plants, trees, furniture, flowers, sheds, and other hardscape materials in your landscape plan. These symbols help you create a layout of the outdoor area and easily manage the resources and time required for the project. It also makes sure that everything is thought through before construction, and there is a lesser chance of you making any mistake in the process.

Landscape symbols are essential to creating a successful landscape plan. You can use these symbols to make a landscape with a good appearance and helps you preserve the environment. Use these symbols to illustrate your balanced, simple, proportioned, and united design. Represent various elements of your landscape and the modifications you want with ease.

² Landscape plan: <https://www.edrawsoft.com/article/landscape-plan.html>

There are various types of materials and components in a landscape plan that you can illustrate using different types of **landscape symbols**. You can represent brick, concrete, and wood using dreck and drive symbols. There are no symbols for annuals in a landscape. You can use an arrow to place the word "note" where you want to position the annuals. You can use symbols with the bird's eye view for other facilities and water features. Here are the three types of landscape symbols.

- Landscape Plant Symbols
- Landscape Infrastructure Symbols
- Landscape Recreational Facility Symbols

2.1 Garden Plant Symbols

Plants define a beautiful garden. **Landscape plants symbols** are most commonly used to create garden plans and design your landscape. Even without lots of plants and trees, you can increase the beauty of your landscape by placing a few attractive plants that will give you nice air and keep the environment gentle. Including plants in your landscape comes with lots of benefits. Plants provide a diversity of texture and smell. They also cleanse your water and air, and you can use trees to block the sunlight and provide shading for open areas with heat due to sunlight.

When you create a landscape plan, you illustrate the design of plants, small galleries, and trees in a particular pattern. You can get specific icons to illustrate trees based on their types, size, and numbers with landscape symbols. You can also use these symbols to represent bushes and other popular plant types such as clematis, hardy ferns, roses, hibiscus, etc. Below are some landscape plant symbols, like evergreen tree symbols, deciduous tree symbols, shrub symbols, flower symbols, and ornamental grass symbols.

● Evergreen Trees Symbols

An evergreen plant is one that has foliage that remains green and functional for more than one growing season, according to botany. This also applies to plants that only keep their foliage in warm climates, as opposed to deciduous plants, which shed all of their leaves during the winter or dry season.

● **Deciduous Trees Symbols**

Deciduous plants, which include trees, shrubs, and herbaceous perennials, are those that shed all of their leaves for portion of the year in botany and horticulture. Evergreen plants, on the other hand, drop their leaves on a different schedule than deciduous plants, giving them the appearance of being green all year because not all of their leaves are shed at the same time.

● **Shrub Symbols**

A shrub is a perennial woody plant that grows in a modest to medium size. Shrubs, unlike herbaceous plants, have woody stems that survive above the ground. Their many stems and

shorter height (less than 6 - 10 m) distinguish them from trees. The shrub symbols are one of basic type of landscape symbols that need in landscape plan.

● **Ornamental Grass Symbols**

Natural grasses and plants with a grass-like appearance, such as sedges, are both utilized for similar purposes in gardens as ornamental grasses. Perennial grasses, or those that live for two or more years, make up the majority of ornamental grasses. Because of their inherent growth habit or because they are not hardy in our area, annual grasses only live for one growing season.

2.2 Garden Infrastructure Symbols

The **landscape infrastructure symbols** visually represent the components and structure in the landscape design. These symbols provide a simple representation of how the garden will look after the landscaping that helps you determine the position, size, and design of the materials you want to include. Landscape symbols for infrastructure come in various sizes based on what you want to represent. Symbols for benches and bridges are wide, while symbols for roads and buildings are long.

Infrastructure symbols are components of every landscape plan because they provide a clean and proper representation of your landscape design. They also help you decide on the type of furniture, stones crafts, and other hardscape materials you want in your garden plan. Here are some **landscape infrastructure symbols**. As for the landscape infrastructure symbols, there are landscape fence symbols, wall symbols, table & chair symbols, bench symbols, bridge symbols, lamp symbols, and stone symbols.

● Landscape Fence Symbols

A fence is a strip representing a partition that prevents outsiders from entering house premises. Fence in a garden is designed according to the house's and garden's theme. But usually, the maximum height of the fence should not exceed 2 meters.

There are various fence symbols available for landscape planning. The following types of fences can be considered while decorating a garden:

Wood Fence	Stone Fence	Chain Link Fence	Basic Fence
			
Fence 1	Fence 2	Fence 3	Fence 4
			

● Landscape Wall Symbols

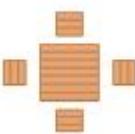

Wall is the most common element of a house. Thick lines in a map represent exterior walls, and thin lines represent interior walls. A wall may be different colors, shapes (straight or

curved), and sizes. So a landscape symbol denotes all the features of a wall in a plan. A wall may be attached to a fountain. You can choose to add tiles and chips on a wall to add to your aesthetic theme. Mostly for landscape decoration retaining walls are considered by the designers. The landscape walls are categorized as follows:

Wall	Vertical Wall	Curved Wall	Curtain Wall
			

● Landscape Table & Chair Symbols

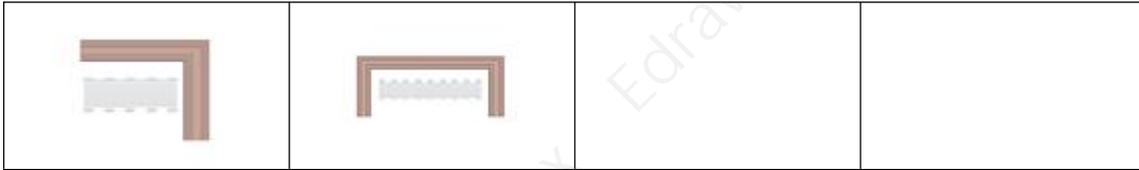

Certain landscape plan needs to use chair and table symbols. EdrawMax offers various table and chair symbols to apply for different purposes. You can find single chair, office chair, recliner, sling chair, armchair, lounge chair, desk, square table, circular table, dining table, oblong table, and more.

2.3 Landscape Recreational Facility Symbols

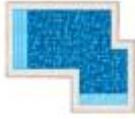

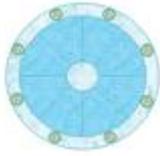

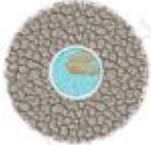

Landscape recreational facility symbols are mainly used in creating landscape plans for residential buildings and similar areas. These symbols illustrate the design of areas where nearby residents can come for recreation, relax, and communicate with each other. Recreational facilities are large, but their symbols are small, similar to other landscape symbols.

There are many benefits of using these symbols in the landscape plan before starting the project. These symbols visualize what your project will look like and which facilities make your landscape more attractive. Here are a few landscapes recreational facility symbols.

- **Garden Pool Symbols**

Certain landscape planning needs to use pool, pond, water symbols. EdrawMax offers

4.2 How to Create More Landscape Symbols in EdrawMax

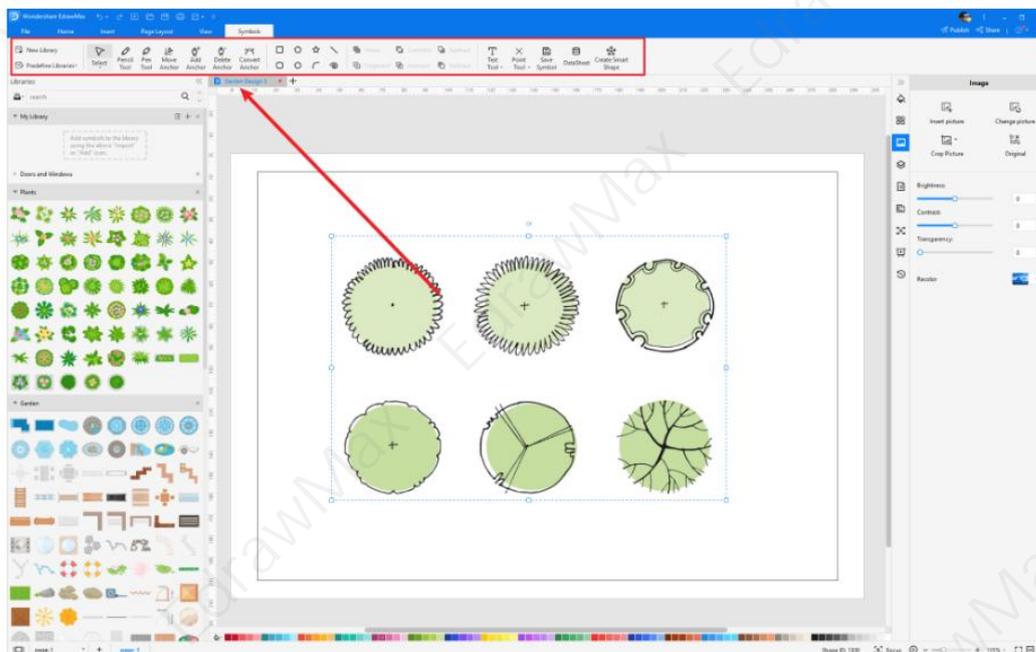

⁴ Landscape design guide: <https://www.edrawsoft.com/draw-landscape-plan.html>

EdrawMax provides you with thousands of symbols to create your diagram. Sometimes you want to use unique or personalized symbols in your diagram that are not in the library. EdrawMax gives you a simple solution to this problem. Follow these steps when you don't find the landscape symbols you want or you wish to create your symbols to make your diagram.

Step 1: Find Symbol Tool

If you can't find any symbol similar to the one you want, you can use the pencil tool, pen tool, and anchor tool to draw your personalized landscape diagram symbol. It is much easier to draw the symbol you want on EdrawMax Online instead of searching for the one that suits your requirements. You can also save your symbol in the library for later use.- Select **"Symbols"** on the upper Toolbar;

- Use **"Pencil Tool"**, **"Pen Tool"**, **"Anchor Tool"** to create garden symbol from very beginning;
- Choose **"Union"**, **"Combine"**, **"Subtract"**, **"Fragment"**, **"Intersect"**, **"Smart Shape"** to make your symbols.

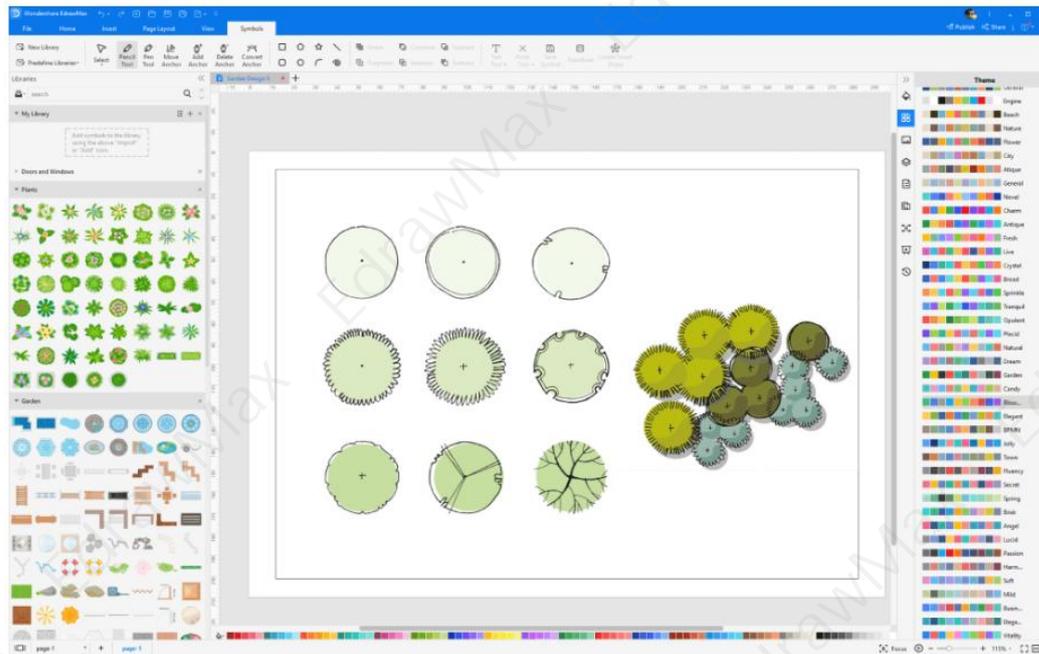

Step2: Create Landscape Symbols

When you create landscape symbols, make sure that the size, design, and other attributes of your symbol go along with other landscape diagram symbols. Follow these steps to draw perfect symbols.

- Make your symbol using a circle template, and when you are creating symbols for multiple plants, don't worry about overlapping the circles.
- You can use various pen styles to make different parts of your symbol.
- Add ground shades on the same side of your symbol.

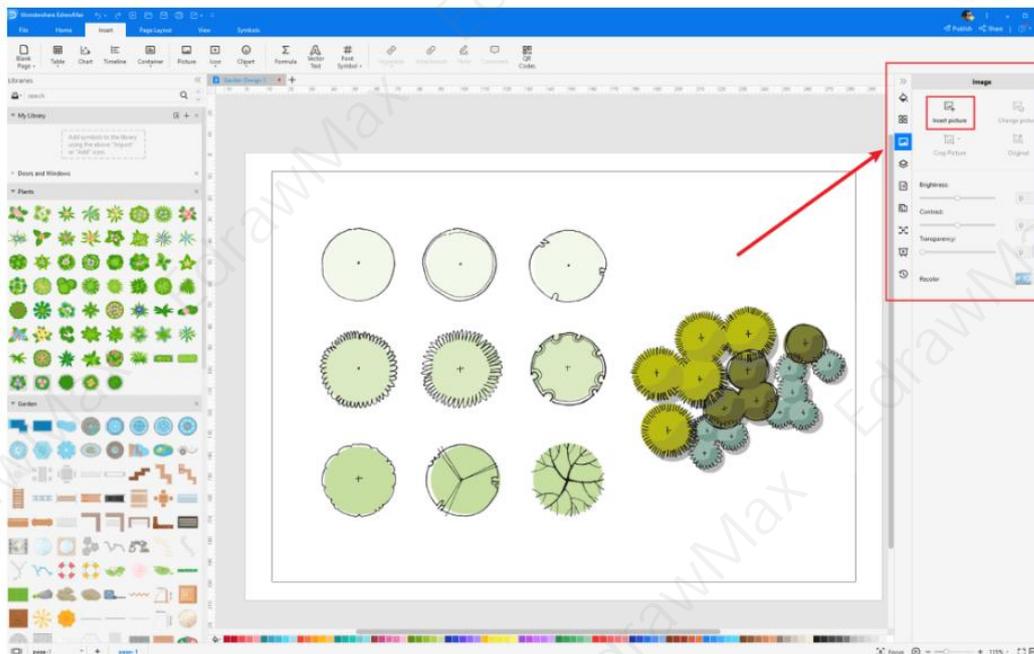

When making a symbol to represent a group of plants, make sure that the plants are all the

same species.

Step3: Import Landscape Symbols

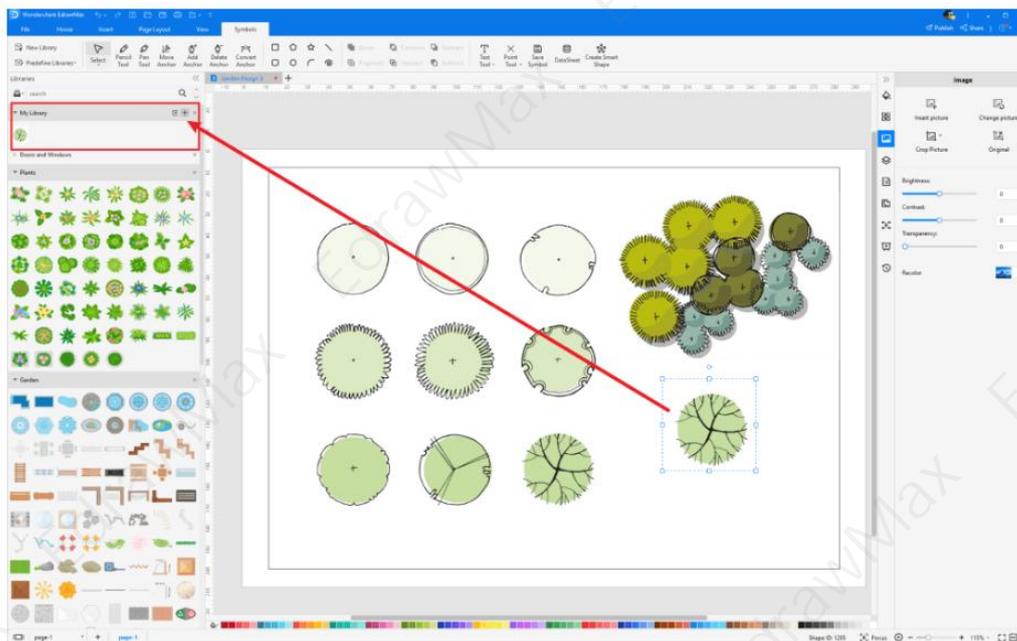

Except for creating new garden symbols in EdrawMax, you can import garden symbols from your end. Find "Insert" on the top navigate toolbar, and import images to turn into symbols. Or click the third option on the right toolbar.

Step4: Save to Your Symbol Libraries

Once you completed your garden symbol design or import your symbol images, you should still click "Symbols" on top, and choose "Save Symbol" to your symbol Libraries. Or you can

click "+" in My Library on the left toolbar. If you want to know more about how to draw a garden plan or garden design, check this [landscape design guide](#)⁵ here.
